Repeal of sumptuary laws. Fewer laws and more justice. Home rule for cities.

Mayor Biliard is in the fight to stay a finish and he has friends in every county in the state who expect him to win. position on the state issues of this

At the time I announced my cardidacy for governor, I stated in plain anguage that the resubmission of the robibitory question would be the prinipal plank in my platform. On the juestion I have not changed my mind, elleving that every question not based upon the fundamental principles of our government should be submitted from time to time to the people. I believe in the rule of the majority of the people, on the prohibitory as well as all other questions, and believing in the intelligence of the voters of this state,

am willing to abide by their decision. "However, I do not believe that resion is the only question involv ed in the approaching campaign. people of Kansas are clamoring for reease from the burdensome which they are now called upon to pay and I feel that the prohibitory law to ever increasing outlay of money.

Vita' will break all records in Topeka. People are just beginning to realize what a great preparation it is. We are instructed by our company to take no money for the preparation unless it proves satisfactory. Thousands upon thousands in this and other large cities are afflicted with general debility, caused by metropolitan life. The entire system becomes affected in such cases and nervousness, stomach trouble, headache, backache, despondency and loss of vitality result. Tona Vita' nd loss of vitality result. will work wonders in such cases in a remarkably short time. tion. The initiative and referendum is needed so that a majorily may express their wishes. The recall is for the same purpose: whenever an official ceases to represent or carry out the wishes of the majority, that majority should have the power to replace him by one who will represent them. Honest officials do not fear the recall.

People Want Lower Taxes. "The present state administration was elected on a platform by which we were promised relief from our burdensome taxes, but our taxes have increased annually. By abolishing contingent funds and dispensing with Wants Home Rule for Cities the numerous deputy attorneys, spe-cial officers, spotters and others now drawing salaries for enforcing or pretending to enforce the prohibitory law, by a careful and economical ad-ministration of all state departments and by dispensing with all unneces-sary employees, a material reduction in taxes could be accomplished. "I believe in the principles of indi-

"I believe in the principles of indi-vidual liberty as enunciated in the Declaration of Independence and further guaranteed by the constitution of the United States: That all men of the United States: That all men are endowed with certain inallenable rights, among which are life, liberty and the pursuit of happiness; to secure these rights, governments are established, and all laws, state and national, should conform with this wise declaration of our forefathers.

"With the recall in effect, I favor a four year term for all state and county offices, with only one term. This would dispense with half the primaries and regular elections which would save over \$100,000 each time to the tax payers of the state.

"I also favor the assessment of real estate only once in four years instead of every two years as now. This

The citizens of Kansas are law abiding but have a greater respect for justice than for law. All laws should be confined to the preservation of justice and the protection of persons and property.
